Spotting Scopes...

Unitron's Spotting Scopes have set industry standards for decades. Perfect for reconnaissance and photography, these have become required items in many sporting, birdwatching and maritime toolboxes.

Our line of precision spotting scopes is complimented by our complete array of accessories for scopes - including eyepieces, tripods and adapters for all types of cameras.

- **Multi-Angle Wonder** — Coated optics for crisp, bright images. Eyepiece rotates 360° to accommodate all viewing positions. Adapts to your 35mm camera for a 1950mm lens.
- **Zoom Scopes** — Bring it “up close” with our zoom power scope! Long life rubber armored covering ensures durability and tripod mounting makes these scopes all around good workhorses for all your viewing needs.
- **Quick Action Zoom** — Anodized lightweight aluminum. The built-in zoom makes it a heavy-duty viewing spotting scope, which can be tripod mounted.
