UNITRON[®] SINCE 1952

microscopes • components • video • binoculars • spotting scopes • telescopes • classic brass

Telescopes...

Many stargazers have grown up with the Unitron name on their favorite telescope — we've been designing and manufacturing celestial and terrestrial telescopes since 1952 — and there have been many exciting developments along the way...

Check out Unitron's ImageTrac[®] - our automatic celestial navigation system - one touch and your telescopes finds the object you want.

- **Unitron Telescopes** — We offer a variety of refractor telescopes. Unitron telescopes offer the amateur stargazer an absolutely first quality instrument, built to exacting standards.
- **ImageTrac™** — Automatic Celestial Navigation System designed for the 3" Equatorial Refractor. With imageTrac™ you can spend your time observing — not looking for objects. There's a huge database of pre-plotted points, as well as the ability to remember your own discoveries — maximizing every moment you sky watch!

3" Equatorial Refractor
